

SH1

Smart Upright Scrubber Dryer

The SH1 is an innovative upright scrubber dryer purpose-built for greasy environments and spaces not suitable for larger units, such as restrooms, commercial kitchens and complex/crowded food service layouts. Combining the power of a walk-behind scrubber dryer with the user-friendliness of a simple mop, the SH1 reduces cleaning time by up to 70%!

Multi-dimensional
Cleaning

350rpm Speed
27kg Down Pressure

20Kpa
Suction Power

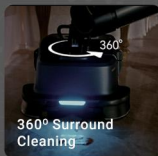

Real-time
Components Monitoring
