

TN70

Cleaning and Disinfection Robot

The TN70 delivers powerful autonomous floor cleaning performance for large facilities. Equipped with high-performance cleaning technology, TN70 autonomously tackles dirt, dust, and debris, delivering immaculate results every time. Optional disinfection accessories allow for autonomous sanitization of surfaces using ultrasonic dry mist.

KEY FEATURES

**Advanced Navigation
Technology**

**Intelligent Obstacle
Detection**

**Powerful Cleaning
Performance**

**100% Autonomous
Cleaning**

**User-Friendly
UI Interface**

**Commitment
to Safety**

PRODUCT SPECIFICATIONS

Dimension(L*W*H*)	45.7" * 22.8" * 47.6"	Recovery Tank Volume	13.2 gal
Voltage	DC 25.6 V	Downward Pressure	0.25 psi
Battery Capacity	100 Ah	Ground Pressure	60 lbs
Working Hours	3h Scrub 10h DustMop	Maximum Velocity	2.68 mph
Noise	75 - 80 dB	Disinfect Fogger	6.5 liter, 1.2 liter/hr
Brush Cleaning Width	20"	Operating Temperature	0° C - 40° C
Squeegee Assembly Width	32"	Manual Drive	Standard
Gross Weight	439 lbs	Cloud Platform	Standard
Climbing Ability	6%	Vehicle Recorder	Optional
Max Cleaning Efficiency	21, 960 ft²/h	Lift Control	Optional
Cleaning Part Distance To Side	<9.8"	Disinfection	Optional
Solution Tank Volume	18.5 gal	Sensors Lidar Range	98.43 ft

IMU/Electronic Bumper Strip/Ultrasonic Densors/Liquid Level Sensor/
Speaker/3D Depth Camera/Cliff Sensor Monocular Camera
