Fleet Management
& Multi-Field Management

Adjustable Cut Height

Adjust cutting height from 10 - 100 mm (0.4 - 4 in.) in-app to match turf type and season.

Wide-Cut Productivity

730mm cutting width delivers high daily output—up to 36,000 m² (9 acres) per day.

3-Layer Guidance System

Dual-antenna RTK GNSS, LiDAR, and Vision work together for stable positioning and obstacle avoidance.

One Scan, Endless Reliability

Map in minutes with the Scanner—no manual driving. Create a digital asset shared across your entire fleet.

TITAN x LINE MARKER KIT

Paired with the line marker kit, the Titan delivers exceptional line-marking precision and efficiency.

Reduce paint usage
by 50%+

Cut labor costs by
up to 90%

Mark up to 10
standard soccer fields per charge

Product Specifications

Dimensions	55.1" x 41.3" x 25.6"
Weight (with 2 batteries)	287 lb
Cutting Deck Width	28.7"
Cutting Height	0.4 - 4"
Number of Blades	3 cutting discs
Max Operation Area	9 acres/day
Max Operation Area Per Charge	4.5 acres
Battery Capacity	2 kWh
Ground Speed	0-2.2 mph
Max Climbing Capacity	20°
